8. ART PIECE

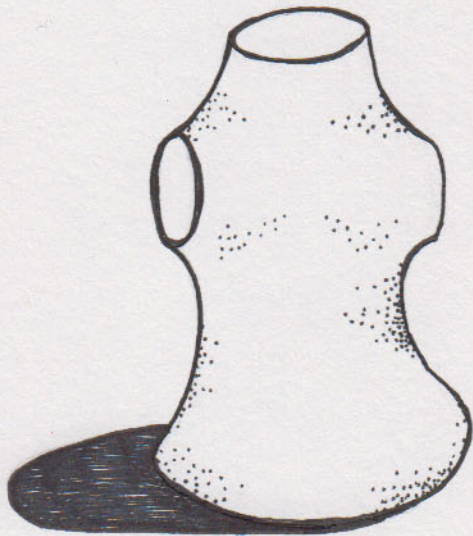

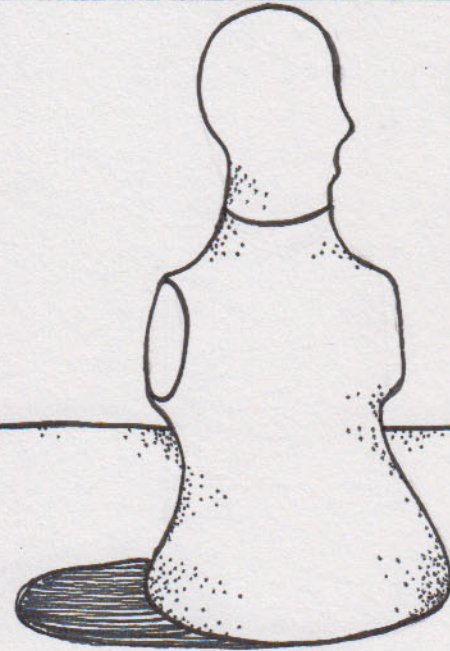

GENETIC ENGINEERING IS A  
RESULT OF SCIENTIFIC  
ADVANCEMENT, SO I DON'T THINK  
THAT IN ITSELF IT'S BAD. IF USED  
WISELY, GENETICS CAN BE  
BENEFICIAL, BUT IT CAN BE  
ABUSED, TOO.

-HIDEO KOJIMA

THOSE THAT DON'T HAVE ENHANCEMENT  
TECHNOLOGIES ACCESSIBLE TO THEM,  
GEOGRAPHICALLY AND FINANCIALLY, WILL FEEL  
INCOMPLETE.

THOSE WHO CAN ACCESS THE TECHNOLOGY WILL  
FEEL SUPERIOR.

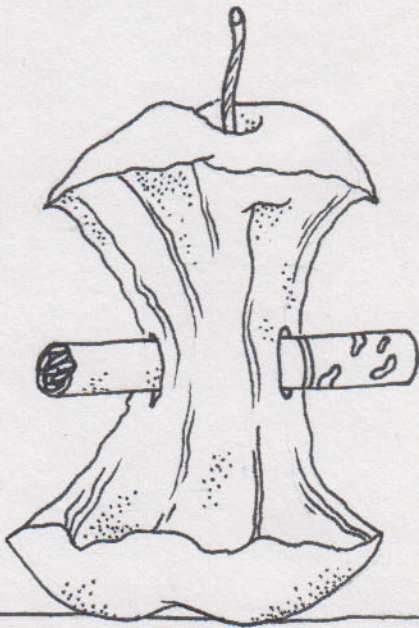

ALLOWING  
ENHANCEMENTS  
WILL CREATE  
GREATER SOCIAL  
SEGREGATION THAN  
THERE ALREADY IS.  
WE MUST BETTER  
OURSELVES  
NATURALLY AND  
EQUALLY.

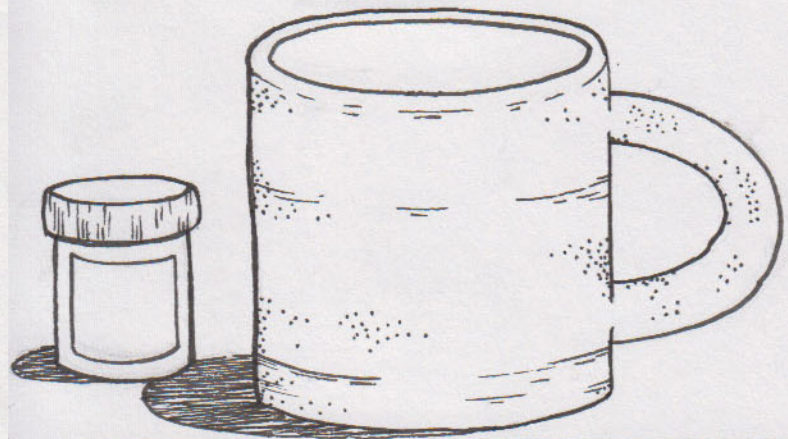

USING GENE DOPING AS A MEANS TO BE BETTER AT  
A SPORT DEFEATS THE PURPOSE OF ALL SPORTS IN  
THEMSELVES. IT WILL BE A MATTER OF ATHLETES  
HEALTH AND HAVING A NATION PRAISING PEOPLE  
HYPED UP ON DRUGS.

*POTENTIAL RISKS*

WITH ENHANCEMENT DRUGS NOT FULLY  
PROVEN SAFE MANY RISKS ARE INVOLVED.

BETTER YOURSELF.  
BETTER YOURSELF.
